

Young Investigator Colloquium

Monday, April 28, 2025, 14:00-16:00

Freie Universität
Forschungsbau SupraFAB

Altensteinstraße 23 a, 14195 Berlin

14:00-14:20 Dr. Michael Kathan (HU Berlin)
Lecture: Machine-directed synthesis of mechanical bonds

14:20-14:40 Dr. Sanjam Chandna (FU Berlin)
Lecture: Biopolymer Engineering for Sustainability: Functionalized Lignin Hydrogels for Multiple Applications

14:40-15:00 Prof. Dr. Daniel Lauster (FU Berlin)
Lecture: Mucins as therapeutic target and source for novel bioinspired materials

15:00-15:20 Dr. Paulina Szymoniak (BAM)
Lecture: Vitrimers – Rethinking Epoxies Towards Recyclable and Reusable Thermosets

15:20-16:00 Conclusion, Coffee & Cookies
